## Millennium™ Chair Specifications

**Frame:** 18", 16", and 14" units: 1-1/8" diameter, 16-gauge legs swaged to 7/8" diameter. 12" and 10" units: 1" diameter, 18-gauge legs swaged to 3/4" diameter. All units are welded together with two seat brackets of 13-gauge die-formed steel, integrally tying all tube parts for maximum structural integrity. Units store with posi-lock, stacking system. Chairs can be stacked within like sizes. Frame is chrome plated after all welding is complete.

**Standard Chrome Finish:** Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mils (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

**Glides:** Nylon or steel, your choice. Swivel design, case hardened steel, super silent deep ferrule. All glides make full level contact with floor. Designed so the maximum swivel angle of the glide is not violated.

**Shell:** One-piece shell is injection molded from special high impact, blush resistant polypropylene plastic with and antistat additive. Textured surface is etched to provide a non-slip surface while assisting in maintaining like-new appearance. Flanged opening in the back adds strength and ventilation. The underside of the shell is molded with an advanced rib pattern transferring weight directly to the frame. The shell is attached to frame with four concealed machine rivets.

Attention to detail is one of the key factors in maintaining high standards. The welting shown here is just one the many areas where details make the difference.

## Shell Colors:

18" available colors:  
Navy, Beige, Burgundy, Teal, Grey, Black, Primary Red, and Primary Blue.

16", 14", 12", and 10" available colors:

Exclusive Posi-lock™ Stacking System Comes standard on Millennium™ Series, preventing loose stacks and falling chairs.

Q.) How do other chairs "stack-up" against the Millennium™ Series?

A.) THEY DON'T!

Millennium™ 2508D Chair Dolly will stack 12 high and roll through any standard size doorway.
